POLISH WORKERS RISE UP AGAINST SOVIET COMMUNIST OPPRESSION

Albanian brothers and sisters!

On 28 June 1956, the workers in the Polish industrial city of POZNAN rose and called for FREEDOM and BREAD. The Communist authorities refused to listen to the workers' complaints whereupon the workers united and broke into the Poznan arsenal where they seized weapons. The regular army troops refused to fire on the people and only Soviet led Security troops fought against the workers. The workers killed over fifty security agents, captured the city hall and raised the true Polish flag which was dipped in the blood of a 16 year old worker. The workers ceased resistance after four days of fighting but only when the regime promised to listen to their grievances.

The Polish Communist clique and the Soviets were so embarrassed that they resorted to the ridiculous trick of blaming everything on "American spies". Only a few weeks previously at the 20th Soviet Communist Congress, Krushchev had denounced Stalin for his crude trick of killing thousands of innocent Russians and Communist Party leaders by falsely accusing them of being American spies. Later this charge of American interference was made even more ridiculous when CCHAB, the Polish Communist Party Secretary, admitted that the Polish workers had just grievances. In addition promises of better working conditions and remuneration were made to the Polish workers. To date the continued pressure of the Polish Workers has forced the regime to actually ameliorate some of the bad working conditions and the Polish workers are not relenting in their pressure to make the regime fulfill its promises.

The whole world was immediately notified of the Poznan uprising and has expressed its sympathy and deep admiration for the brave Polish workers. The Polish workers by their united resistance which has forced concessions from the regime have clearly demonstrated that they desire and merit freedom. The U.S. government and even Nehru of India called upon the Soviets to liberate Poland and the other Satellites!

Albanian brothers and sisters!

The Poznan uprising together with the East Berlin uprising in 1953 and the bombing of the Soviet Embassy in Tirane in 1951 are all dramatic demonstrations of the deep desire of the people for Food and Freedom!

The Albanians are no less brave than the Poles. The Albanians have fought openly against the Hoxha-Shehu clique and are ready to do so again at the proper time. But, the Albanians know that for the time being they must continue to resist by clandestine and peaceful means. Albanians know that they must first unite and together communicate their desires for more bread and freedom to their government officials. The Albanians are tiring out the Party stooges by refusing to go to meetings or obey Party directives unless physically forced to do so.

SECRET

Albanians are hiding their crops and refusing to fulfill work norms because they know the profits of their work go to feed the Soviets and the Tirane clique. The Albanians are protecting their fellow man by becoming Communist Party members and clandestinely thwarting the Communist plans to make every Albanian nationalist a slave.

Albanians! Just as the Polish Communist regime has been forced to grant more concessions to the Poznan Workers so too the Tirane clique will have to grant the Albanian workers a greater share of bread and rights if the Albanian workers unite in action. ALBANIANS! UNITE AND HELP ONE ANOTHER. IF YOU COOPERATE, THE REGIME WILL BE FORCED TO YIELD TO YOUR DESIRES FOR MORE FREEDOM, LESS TAXES, MORE CONSUMMER GOODS AT LOWER PRICES AND TO ACCEPT THE FOOD OFFER FROM THE UNITED STATES.
